Hi ma'am,

Good day po.

Nareceive ko na po yung letter nyo the day before po kayo pumunta sa UP. Pasensya po, 4-530 lang class ko pag thursday, most of my classes po ay WF.

Regarding po sa letter nyo, magbibigay po agad ng reply the latest po ay next week. Aasikasuhin ko po this week agad. Pwede ko po makuha number nyo na pwede ko tawagan kung may tanong po ako.

Ito po mobile ko: 09178599876.

Thanks,

Wendell

Hi Sir Wendell,

This is to follow-up your response on our letter dated 05 September 2016. It's been almost a month already and still, we have not received any response from you. May we request you to submit to us immediately the necessary documents stated in our letter for the deferment of your repayment.

Hoping for your response the soonest. Thank you

Very truly yours,

**EDERLYN ROGELIO**

Dear Mr. Campano,

This has reference to your PhD scholarship under the DOST Accelerated Science and Technology Human Resource Development Program (ASTHRDP). We would like to remind you that the deferment of your repayment ended in the first semester of SY 2014-2015. As of this date, we have not received any update from you. In this regard, may we request you to communicate with us immediately regarding the status of your studies.

We believe that as a grantee, you are fully aware of the repayment provision of the contract you signed with us in case of non-completion of the degree.

Please be guided accordingly.

Very truly yours,

**EDERLYN ROGELIO**

Hi Sir Wendell,

Good Day! Pumunta po kami yesterday sa office nyo para sana makausap kayo regarding your scholarship, unfortunately hapon pa pala ang klase nyo and morning kami nagpunta. Anyways, we spoke with your admin po, Ms. Evelyn Torres, sa kanya po namin pinareceived ang letter namin for you. Please see attached file po for the copy of the letter. We hope to receive your response on our letter the soonest.

Thank you.

Very truly yours,

Hi ma'am,

Good afternoon. Pwede po mahingi tel. number nung sa SEI, kasi po nung nagsubmit ako ng requirements for opening a bank account, wala pong binigay na next step.  
Itatang ko nalang po kung pano kukunin yung atm and account number.

Thanks,  
Wendell

DOST Accelerated S&T Human Resource Development Program

Scholar's Thesis/Dissertation Progress Report

for the  1st  2nd  3<sup>rd</sup>  4<sup>th</sup> Quarter / Year 2013

THESIS/DISSERTATION TITLE:

*Testing and Robust Estimation of Time Series  
Models with Volatility*

GRANTEE: <i>WENDELL Q. CAMPANO</i>	DEGREE PROGRAM: <i>PhD in Statistics</i>
---------------------------------------	---

DURATION:

DATE STARTED: <i>1st sem AY 2012-2013</i>	EXPECTED DATE OF COMPLETION: <i>2nd sem AY 2014-2015</i>
--	---

OBJECTIVES:

*The main objectives are (1) to develop a nonparametric method to determine and formally test the occurrences of persistent volatility or structural change in time series data and (2) to be able to estimate the true data generating process of the time series. The proposed method can be used in modeling any time series data. For example, it can be applied in determining anomaly in climate data and aid in assessing the impact of climate change on health.*

SCHEDULE OF ACTIVITIES:

*May - June 2014 Comprehensive exam*

*1st sem AY 2014-2015 Proposal defense*

*2nd sem AY 2014-2015 Final Defense*

RESULTS AND DISCUSSION:

simulation studies exhibited high power of the test procedure when the proportion of segments of local volatility is relatively small. When there is a high proportion of local volatility in the data, increasing the number of test segments can improve performance of the algorithm as long as there are enough time points w/i each segments for model estimation. In general, the method can address the issue of poor prediction among volatility models in the literature.

PROBLEMS ENCOUNTERED/PROPOSED SOLUTIONS:

Some issues not yet resolved are (1) consistency of the bootstrap method (2) optimal block length and (3) range of proportion of persistent volatility that the proposed method can still outperform conventional modeling approach. (1) can be established by theoretical properties of bootstrap methods, (2) for (2), I am still establishing useful explorators like the one used by Politis and White (2003) in determining optimal block length. For (3), more simulation studies can help.

Date: 20 MAY 2010

CAREER PLANS

b1) Briefly discuss your proposed research areas

I am planning to explore and study the theoretical foundation of my MS thesis entitled "An Estimation Procedure of an SEM model in the presence of structural change". I have already established that the method works through simulated data. And I have presented it already in IASC 2008 in Japan. ~~by~~ I believe that I can also prove ~~its~~ its theoretical foundation in my PhD.

b2) Future Plans (After Graduation)

right now, I am convinced that my calling is to serve my country through teaching in the govt. academe and through research. I do not have plans of ~~to~~ leaving the country for the sake of my own career advancement. Instead, I would like to offer my skills to God and the Filipino people. After all, the latter subsidized most of my financial needs for my education. When I get my PhD degree, my immediate concern is to create user-friendly programs that would incorporate computer-intensive statistical procedures that we have developed at the school. Usually, these methods are difficult to implement particularly to those who are not computer programmers. Thus my goal is to combine our research and easy implementation of new methods developed in it. I strongly ~~also~~ believe that these will contribute much in uplifting our country in the field of statistics.

## UNIVERSITY OF THE PHILIPPINES DILIMAN TRANSCRIPT GUIDE

Page 3 of 8

Student records are confidential and information is released only at the request of the student or of appropriate institutions [provided an authority to release is issued by the student]. "Partial" transcripts are not issued. Official transcripts of records obtained from other institutions and which have been submitted to the University for admission and/or transfer of credit become part of the student's permanent record and are issued as certified true copies with the UP transcript.

Application for transcript of records should be accompanied by a student clearance (UP Form 241). University clearance should be applied for immediately after the last semester/trimester/term of enrolment.

### Transcript Entries

Courses taken in UP Diliman, cross-enrolled in other Constituent Units (CUs); Advance Placement Examination (APE), Advance Credits Awarded, and Proficiency Examination in Physical Education (PEPE) appear in the Transcript of Records.

#### Advance Placement Examination (APE)

New freshmen who qualify for and pass the prescribed advance placement examination in basic courses in the freshman year such as the languages, College Algebra, Plane Trigonometry, and others within one (1) year of their enrolment in the University, shall be given credit for the corresponding subjects in their academic program provided that this privilege is not given for more than six (6) units in any one discipline. These examinations are usually scheduled two (2) weeks before the advanced freshmen registration every first semester.

Holders of the International Baccalaureate (IB) diploma/certificate may apply for advance credit for certain subjects they have taken. However, the total credit that may be granted, including automatic credit, shall not exceed 15 units per subject area.

#### Proficiency Examination in Physical Education (PEPE)

Proficiency examinations (or credit by examination) in PE courses are given to enable students who are already skillful in one (1) or more sports to acquire advanced units in PE. Any student who passes a PEPE shall be given credit for the corresponding PE course. Students may take proficiency examinations in one (1) or more courses to meet the PE requirements. The examination is given twice a year before the start of every semester.

#### Validation for Advanced Credits

A transfer student admitted with less than 66 units of work must validate all the courses he/she is applying for advanced credits at the rate of 18 units a semester within a period not exceeding three (3) semesters from the date of admission.

### Academic Calendar

The Academic Calendar is divided into two (2) semesters of at least 16 weeks each, exclusive of registration and final examination period. Each semester consists of at least 100 class days. A summer session of 6 weeks follows the second semester. Class work in the summer session is equivalent to class work in one (1) semester.

The first semester begins in August, the second semester in January, and the midyear term in June.

All academic units in UP Diliman operate under the semestral system, except for the Master of Business Administration and the Master of Science in Finance programs of the Cesar E.A. Virata School of Business (CEAVSB), the Master of Management of the UP Extension Program in Pampanga/Olongapo, and the Professional Masters in Tropical Marine Ecosystems Management program of the College of Science which are under the trimestral system.

### Special Order Number

The University of the Philippines, the National University by virtue of R.A. 9500, operates under a University Charter. Graduation of students does not require confirmation by the Commission on Higher Education (CHED), thus, the University does not issue a Special Order No. to its graduates.

### Authenticity

The copy of the Transcript of Records is an exact reproduction of the transcript on file with the Office of the University Registrar and is considered as a copy of the original when it bears the dry seal of the University and the original signature of the University Registrar or a Security Signature Stamper. The use of the stamper was approved by the Board of Regents at its 1303<sup>rd</sup> meeting held last 26 November 2014 and implemented effective January 2015.

Any erasure or alteration made on this copy renders the whole transcript spurious and invalid.

### Credit Unit

The unit is the semester hour. Most classes taught at the University meet 3 hours a week; these classes carry 48 clock hours of instruction and 3 units of credit.

Each unit of credit is at least 16 semester-hours of instruction in the form of lecture, discussion, seminar, tutorial, recitation, or any combination of these forms. Laboratory work, field work, or related student activity is credited one (1) unit for at least thirty-two (32) semester hours.

Fri, Nov 9, 2012 at 2:31 PM

Draft To: "Mark Louie F. Ramos" &lt;mframros@mnl.ust.edu.ph&gt;

On Thu, Nov 8, 2012 at 3:08 PM, Mark Louie F. Ramos <mframros@mnl.ust.edu.ph> wrote:

Gud pm po ma'am,

I submitted the one with 47 units because that was what I was given by Dean Barrios. However, he did tell me that I can choose not to take the 9 units of electives. I wanted to ask your permission first before I go back and ask them for a revised program of study which will reflect only 38 units since doing so would mean that in some semesters, I will only be taking a few units.

The problem is, even if I do not take the excess of 9 units, it will still take me 5 semesters to finish the program because the subjects Stat 230/231 -> Stat 232 -> Stat 233 -> Stat 234 need to be taken one after the other, and Stat 230/231 are not offered this semester. The revised program of study would look like this:

Semester 1: 12 Units  
Semester 2: 6 units (Stat 230 and Stat 231)  
Semester 3: 6 units (Stat 232 and 1 elective)  
Semester 4: 4 units (Stat 233 and Stat 290-1)  
Semester 5: 10 units (Stat 234, Stat 290-2, and Stat 300)

Thanks po.

Joselito C. Magadia, Ph.D.  
Graduate Director  
School of Statistics, University of the Philippines

Dear Director Magadia,

I applied for the Master of Science in Statistics program at your institution for the 1<sup>st</sup> semester of School Year 2012-2013. I was informed when I called the office of the School of Statistics sometime in April, 2012 that I was accepted to the program, but that an official letter of acceptance would not be released until the middle of May. Unfortunately, I could not secure a leave of absence from the university that I am teaching at without a letter of acceptance. As such, I am not able to proceed with my enrollment for the 1<sup>st</sup> semester of 2012-2013. In line with this, I would like to request for the deferment of my enrollment under the same program to the 2<sup>nd</sup> semester of 2012-2013. I would also like to request for a copy of a letter of acceptance to the program for the 2<sup>nd</sup> semester of 2012-2013, as I need this in order to process my leave of absence at my place of work.

I hope for your kind consideration with regard to these matters. Thank you.

Respectfully yours,

Mark Louie Ramos, MMathEd.

CAREER PLANS

b1) Briefly discuss your proposed research areas

One matter that has captured my interest in the field of statistics is the use of numerical analysis to find the minimum p-value in non-parametric Categorical analysis. I employed this technique as a graduate student and was pleased with the results. However, I could not find any literature that backed its soundness theoretically.

---

b2) Future Plans (After Graduation)

I intend to remain in the academic for the entirety of my professional career. I am devoted to my profession and will engage in teaching and research at UST for decades to come.

Office of the EXECUTIVE DIRECTOR (OED)  
ROUTING SLIP

To: ENGR. ERNIE
