Hi Ma'am Christy,

How are you na? I am furnishing you a copy of the email I sent to Ma'am Ermie. Please help me follow this up. I have scheduled a trip to Manila on March 18 to process my clearance at BID. Thank you and God bless.

Regards,

Chona

Dear Madam:

A pleasant day to you. I am writing to request for a temporary clearance to travel to Singapore with my three daughters. My eldest daughter, Candice Lorraine, will be graduating from high school this month. As a thanksgiving and celebration, we are going on an out-of-the country vacation on April 1-10, 2011. I have a teaching load this summer so I have to be back in Cagayan de Oro City for the start of summer class on April 11.

Let me take this opportunity also to update your office on the status of my return service for having enjoyed an MS Chemistry scholarship under PCASTRD. Since June 2010, I have served as full-time faculty member of the College of Arts and Sciences of Liceo de Cagayan University.

Attached are our etickets which contains our itinerary details.

Thank you and I am hoping for your approval to this request.

Respectfully yours,

CHONA D. GELANI

Good Noon and "Happy New Year!"

Lecture grade is 3.5 (final exam score: 56/75)
Laboratory grade is 3.5 (final exam score: 81/125)

Sorry this is late. I could not access DLSU web site for many days from my home computer.

Congratulations for a very good performance, you are the highest in class. Keep up the good work.

Brief Description of Career Plans:

Having been a part of the PNP Crime Laboratory for the past four years, I can say that I am suited with this kind of job that why I still see myself to be a part of this institution in the coming years. Nevertheless, because we get promoted every few years, I believe that in the near future, I will no longer work as a mere Forensic DNA Analyst but also will be delegated to take on more duties and responsibilities as I will be holding higher position in this institution. In few years, I see myself to be the Deputy Chief for Operation of the PNP Crime Laboratory DNA Section or if plans for the establishment of DNA Laboratory in Visayas and Mindanao, then I see myself as the laboratory supervisor.

In this line of work, where my report establishes the guilt or innocence of an individual, it is necessary that I am very confident in all aspects of what I do. I got interested in taking up graduate studies not only to update my knowledge and further hone my skills but also for the advancement of my career. I also wanted to take up graduate studies in preparation for the future when I have to assume higher rank.

PCASTRD, DOST

Dear Madam:

May I respectfully recommend PSINSP SHEILA MARIE T. ANGUSTIA to avail the PCASTRD Graduate Scholarship.

PSI ANGUSTIA is a member of the PNP Crime Laboratory since September 6, 2004 and is currently assigned at the Forensic DNA Analysis Section of this unit as Forensic Chemist/Forensic DNA Analyst. Based on the available records, PSI ANGUSTIA has no pending criminal/administrative case under summary proceeding/investigation and/or review.

The program which PSI ANGUSTIA is planning to pursue is relevant to her field of expertise. The unit will benefit from her training as we will be utilizing the services of PSI ANGUSTIA. After the completion of the program, the PNP Crime laboratory will retain the position that she holds at present.

Advance studies of technical personnel are encouraged and supported by this unit as it is our aim to produce more capable forensic science experts in different technical fields. It is our effort to improve our technical capacity in line with our mission of providing scientific investigation services to PNP offices and other investigative agencies by providing scientific analysis.

The candidate's salary will continue to be paid during the period for which the scholarship is awarded in accordance with the existing policies mandated for government employees availing of any training and scholarship.

Hoping and anticipating your most favorable consideration on this matter.

Very truly yours,

EDMAR ANBOCHI DELA TORRE
Police Chief Inspector
Chief, DNA Section

I hope that you will consider Ms. Angustia to be deserving of a PCASTRD scholarship grant.

Thank you very much.

Very Truly Yours,

Luciana V. Ilao

ENGR. ERMIE M. BACARRA
Division Chief, PCASTRD
Department of Science and Technology

Dear Engr. Bacarra:

It is with great pride and honor that I recommend Sheila Marie Tabulina-Angustia for a PCASTRD (Philippine Council for Advanced Science and Technology Research and Development) scholarship to pursue M.S. Biology at De La Salle University.

Sheila is a graduate of our degree program, BS Biochemistry and was one of the first batch of students who took the course when it was first offered in 1996. BS Biochemistry is one of the programs in UP Manila that demands strong analytical and logical thinking, hence our students are chosen on the basis of above average UPCAT scores specifically in the sciences, mathematics and comprehension skills. Since the UPCAT form did not yet include the B.S. Biochemistry as one of the courses which the students can choose, when the program was offered we had to literally handpick our students based on analytical skills and high intellectual ability and Sheila belonged to that first batch of students.

Ms. Tabulina-Angustia had been my student in various biochemistry subjects starting with Fundamentals in Biochemistry (Biochem 14), Ethics (Biochem 171), Research Methods (Biochem 199) and various elective courses. She is a hardworking and serious student who comes to class regularly. She is also a responsible and independent person. At the time she was completing her baccalaureate degree, she was also working as student assistant at the Registrar's Office to help with her expenses for her studies. She also loves doing research and would not hesitate to spend hours completing her investigation. She is also a licensed chemist working in the crime laboratory-DNA section of the Philippine National Police.

She has great leadership skills and was one of the officers of the Biochemical Society of UP Manila. She is a people-person and loves working in a team. And this has helped a lot manage her stress while taking the difficult subjects that are included in the BS Biochemistry curriculum.

Given the chance to be a scholar under your program, I am sure Sheila will be able to complete her studies in time as she is determined to do so. Indeed, Sheila is more than qualified to pursue graduate studies and realize her career goals.

Thank you!

Very truly yours,

Dear Engr. Bacarra:

I have the honor to recommend Ms. Sheila Tabulina Angustia for a PCASTRD scholarship for the degree of Master of Science in Biology at De La Salle University, Manila.

Ms. Angustia is a graduate of the first batch of B.S. Biochemistry at the College of Arts and Sciences of UP Manila. She was my student in most of her major subjects which included Physical Chemistry, Physical Biochemistry and Advanced Analytical Chemistry. As an undergraduate student, she ranked among the top 40 % of her class, which was no mean feat considering that her class consisted mostly of valedictorians and graduates of science high schools. As a student, she was conscientious, systematic, resourceful and innovative. She possessed the emotional maturity that allowed her to easily adapt to the demands of a situation and be a good leader. I believe that these characteristics in addition to her above average intelligence helped her survive the course. It was therefore not surprising that after graduation, although she is not a B. S. Chemistry graduate, she took and successfully passed the Chemistry Licensure Examination.

I believe that with her potential as a good researcher, Ms. Angustia will give justice to any scholarship that the PCASTRD will grant her.

Dear Sir:

Miss Sheila Marie A. Tabulira is my student for four years when she took the B.S. Biochemistry program offered by our department. She is my student in several courses that I teach such as General Chemistry, Organic Chemistry, Biochemical Mechanisms and Environmental Biochemistry. The first time I met this student in my class, I could easily sense his exceptional quality. And yet she remained a very humble, courteous, and helpful student. She is the kind of student who can easily get along with other people and knows how to handle situations that require critical decisions. Her patience and willingness to take risks can easily be observed when important tasks are assigned to her. I notice this behavior when she was doing her graduate thesis. Having her as my student is also a challenge on my part because she always asks intelligent questions that make me ponder sometimes. I am very happy to know that she decided to pursue her masteral degree. I hope you will consider her application for scholarship.

Respectfully yours,
