	am convinced that my calling is to serve my country
through feach	ling in the government academic and through research.
I do not have	plans of having the country for the sake of my own carely
Instead, 8 wo	ruld like to offer my skills to God and the Filipino people.
After all , the	latter subsidized most of my financial needs for my
education . W.	len of get a PhD Legree, my immediate concern in to
create wer-free	maly programs that would incorporate computer-interiore
Statistical proces	dusks that we have developed at the school. Usually, these methods
are difficult for	statisticions to implement porticularly to those who are not competer
programmers. There	my goal is to compine our research and easy implementation or new method
